

Soaring Magazine Index for Technical_Soaring organized by issue

*The contents have all been re-entered by hand, so there are going to be typos and confusion between author and subject, etc...
Please send along any corrections and suggestions for improvement.*

*Department, Columns, or Sections of the magazine are indicated within parentheses '()'.
Subject, and sub-subject, are indicated within square brackets '[]'.*

1971

Volume I, Number 1, July, 1971

- Steve Bowen, *Epoxy Glass Systems for Sailplane Construction* [Construction], page 1
W.J. Betts and G.P. Layton, Jr., *Towplane Hook Design and Operational Tests* [Design; Launching\Aerotow], page 7
Paul B. MacCready, *Instruments and Techniques for Locating and Exploiting Thermals* [Meteorology\Thermals; Instruments], page 14
Francisco Leme Galvao, *A Universal Table for Gliding*, page 18

Volume I, Number 2, October, 1971

- John H. McMasters and Curtis J. Cole, *The Prospects for Man Powered Flight (The Future of an Illusion)* [Human-Powered Flight], page 1
C.A. Patching, *Establishing the Structure Integrity of Aging Gliders* [Construction], page 17
D.F. Farrar, *A Low Speed Sailplane for Research*, page 25
Robert J. Pegg, *Application of the Valveless Pulsejet Engine to Powered Sailplanes*, page 29

Volume I, Number 3, January, 1971

- Charles V. Lindsay, *Forecasting thermal conditions for soaring*, page 1
Paul Bikle, *Sailplane Performance Measured in Flight*, page 6
Call for Papers, page 32

Volume I, Number 4, April, 1971

- J.R. Milford and G.R. Whitfield, *An Instrumented Glider for Meteorological Research* [Meteorology], page 1
H.C.N. Goodhart, *A Note on the Measurement of the Induced Drag Factor (k) of a Glider*, page 7
Major Judson T. Bauman, *Effect of Stabilizer Lift on Sailplane Performance*, page 10
Marshall Howe, *The Berkshire Electric Vario* [Instruments\Variometers], page 16
Don Ott, John Larkins, and Kevin Ott, *A Ticker Audio vario* [Instruments\Variometers], page 26
L. Pazmany, H. Prentice, C. Waterman, and F. Tietge, *Potential structural Materials and Design Concepts for Light Airplanes, Part I*, page 30
G. Stedfield and J.P. Crance, Translated and abstracted by Erica Scurr, *Abstract: The World Gliding Championships at Marfa Texas and the Medico-Physiologic Preparation of the Teams*, page 39
Call for Papers, page 40

1972

Volume II, Number 1, July, 1972

- Doc. Dr.-Ing. Jerzy Maryniak, *Longitudinal Stability of a Glider in Rigid Tow* [Launching\Aerotow], page 1
L. Pazmany, H. Prentice, C. Waterman, and F. Tietge, *Potential Structural Materials and Design Concepts for Light Airplanes, Part II* [Construction], page 8
Robert A. McKnight, *Mechanics of airspeed* [Aerodynamics], page 25
Papers Presented at 13th OSTIV Congress, Vrsac, Yugoslavia, 1972 (Technical), page 43

Volume II, Number 2, October, 1972

- Steven T. Bowen, *Composite Systems for Aircraft Construction* [Construction], page 1
Piero Morelli, *Extruded Light Alloy Aircraft Structure* [Construction], page 14
L. Pazmany, H. Prentice, C. Waterman, and F. Tietge, *Potential structural materials and design concepts for light aircraft, part 3* [Construction], page 25
-

1973

Volume II, Number 3, January, 1973

- K.J. Strack, *Crack Toughened Epoxies for Room Temperature Applications* [Construction], page 1
Barry R. Elson, *Fiberglass reinforcement for sailplanes* [Construction], page 8
L. Pazmany, H. Prentice, C. Waterman, and F. Tietge, *Potential structural materials and design concepts for light airplanes, Part IV* [Construction], page 18
Call for Papers: Fourteenth OSTIC Congress, Waikerie, Australia [OSTIV], page 44

Volume II, Number 4, April, 1973

- Jerzy Wolf, *The stretched membrane sailwing*, page 1
Ralph Markson, *Remote Detection of Thermals by Means of Horizontal Electric Field Measurements* [Meteorology\Convection], page 14
William H. Phillips, *Gyroscopic Moments on a Glider in Turning Flight* [Aerodynamics], page 29
Call for Papers: AIAA/MIT/SSA Second International Symposium on the Technology and Science of Low-Speed and Motorless Flight, page 37
K.J. Strack, *ERRATA: "Crack Toughened Epoxies for Room Temperature Applications", Volume II, Number 3, page 1.*, page 38
Call for Papers: A Northwest Soaring Symposium, page 38

Volume III, Number 1, Winter, 1973

- F.G. Irving, *Cloudstreet Flying* [Meteorology\Convection], page 1
Jósef Gedeon, *Dynamic Analysis of Dolphin Style Thermal Cross Country Flight* [Techniques\Dolphin], page 9
Risto Arho, *Optimal dolphin soaring as a variational problem* [Techniques\Dolphin], page 20
Ludmir Laudanski, *Gust loads on gliders taking into account their flexibility* [Aerodynamics], page 27
-

1974

Volume III, Number 2, Spring, 1974

- C.L. Bristor, C.V. Lindsay, B.B. Goddard, and R. Koeffler, *New Satellite Support for the Soaring Weather Forecaster and Pilot* [Meteorology\Forecasting], page 1
Robert T. Lamson, *Alcor - A High Altitude Pressurized Sailplane* [Sailplanes\Alcor], page 14
F.G. Irving, *The Effect of Errors in Interthermal Speed on the Average Cross Country Speed* [Techniques\Thermal], page 26
F.G. Irving, *Altitude Effects on Variometers* [Instruments\Variometers], page 31

Volume III, Number 3, Summer, 1974

- Peter F. Lester, *An Evaluation of a Lee Wave Forecasting Nomogram* [Meteorology\Waves], page 1
Hans Zacher, *The definition of the motorsegler* [Motorgliders], page 11
Jósef Gedeon, *Dynamic Analysis of Dolphin Style Thermal Cross Country Flight* [Techniques\Dolphin], page 17

Volume III, Number 4, Fall, 1974

- F. Weber and W. Trommsdorf, *The Meteorological Conditions for Dynamic Soaring in the Jetstream and in the Low Level Jet* [Techniques\Dynamic Soaring; Meteorology], page 1
J.H. McMasters, *An Analytic Survey of Low Speed Flying Devices - Natural and Man-Made* [Aerodynamics], page 17
J.H. McMasters, *Low Speed Airfoil Bibliography* [Literature\Bibliography; Literature\Aerodynamics], page 40
-

1976

Volume IV, Number 1, 1976

- Flugwissenschaftliche Vereinigung: Automatic Control of Camber Changing Flaps on High-Performance Sailplanes* [Construction], page 1
Malcolm J. Abzug, *A Speed Ring for Cloud Street Flying* [Performance], page 9
Richard M. Andres, *Is a "Speed Ring" Necessary* [Performance], page 15
Wilhelm Lucker, *A New Seatbelt System for Sailplanes* [Safety], page 22

Volume IV, Number 2, December, 1976

- Dan M. Somers, *Experimental and Theoretical Investigation of Differences between a Manufactured and the Corresponding Design Airfoil Section* [Aerodynamics], page 1
Wieslaw Staffiej, *Load alleviating capabilities of the glider structure* [Construction], page 15
D.J. Marsden and V.K. Sharma, *A retractable propeller for self launching sailplanes* [Motorgliders], page 22
A Preliminary Symposium Announcement, page 26
Risto Arho, *Some Notes on Soaring Flight Optimization Theory* [Performance], page 27

Volume IV, Number 3, April, 1976

- Oran W. Nicks, *A Simple Total Energy Sensor* [Instruments], page 1
Patrick K. Squires, *Development of a Computerized Sailplane Performance Analysis* [Aerodynamics], page 12
Patrick K. Squires, *Configuration Optimization of a 13 Meter Span Sport Sailplane* [Aerodynamics], page 19
C.A. Patching and G. Strickland, *Instructional Techniques for Gliding Instructors* [Instruction], page 29
T.W. Glade and J.C. Westkaemper, *Planform Effects on the Induced Drag of Untwisted Wings* [Aerodynamics], page 35

Volume IV, Number 4, November, 1976

- V. Giavotto and L. Salvioni, *A Direct Technique for Measuring Sailplane Performances* [Aerodynamics\Measurements], page 1
Richard H. Johnson, *Flight Test Polar Measurements of Modern Sailplanes* [Aerodynamics\Flight Tests], page 11
Robert T. Lampson, *Advances in Material Science and Fabricating Techniques for Sailplane Construction* [Construction\Materials], page 27
J. Gedeon and G. Kalman, *Service Life Extension Possibilities by Fatigue Tests on Used Sailplanes* [Sailplanes\Testing], page 34
-

1978

Volume V, Number 1, May, 1978

- R. Meyer, *Dolphin Style Gliding* [Techniques\Dolphin], page 1
Peter Mortenson, *Glide Matrix and Final Glide Device* [Performance], page 10
Stephen Du Pont, *Safer Landings through Understanding Visual Pattern Angles* [Safety], page 13

- E. Eugene Larrabee, *The Aerodynamic Design of Sailplane Tail Assemblies* [Sailplanes\Design], page 21
Malcolm J. Abzug, *Computed Variometer Response to Elevation Motion and Thermals* [Instruments\Variometers], page 29
Call for Papers - XVI OSTIV Congress, Chateauroux, France July 20-29, 1978 [OSTIV], page 36
Richard H. Johnson, *Errata: Flight Test Polar Measurements of Modern Sailplanes (Volume IV, Number 4)* [Errata; Aerodynamics\Flight Tests], page 37
Call for Papers - Third International Symposium on the Science and Technology of Low-Speed and Motorless Flight, page 38

Volume V, Number 2, December, 1978

- Vadym V. Utgoff and Frederick G. Johnson, *Dynamic Soaring in the Atmospheric Boundary Layer: An Experimental Investigation* [Techniques\Dynamic Soaring], page 1
Lee Collins and Wolfram Gorisch, *Dolphin-style soaring - A Computer Simulation with respect to the Glider's Energy Balance* [Techniques\Dolphin], page 16
D. Althaus, *Measurements on Airfoils with Flaps at Medium Reynolds-Numbers* [Aerodynamics], page 22
Henry Millicer, *The Deep Stall of Sailplanes, Part 1* [Aerodynamics], page 35
NASA-SSA Third International Symposium on the Science and Technology of Low Speed and Motorless Flight [Aerodynamics; Conferences], page 39

1979

Volume V, Number 3, March, 1979

- Doug Armstrong and Chris Hill, *Mountain Meteorology - Know Before You go* [Meteorology\Mountain], page 1
D.J. Marsden, *Sailplane Performance Estimation* [Sailplanes\Performance; Aerodynamics], page 15
J.H.M. Gooden, *Experimental Low-Speed Aerodynamic Characteristics of the Wortmann FX 66-S-196 VI Airfoil* [Aerodynamics], page 21
H. Ulv Mai, *Application of a Low-Frequency Aeroelastic Element Method to the Harmonic Gust Response Analysis of a Flexible Airplane* [Construction\Analysis], page 32
Stefan Nyström and J. Ulv Mai, *A Fatigue Test on a Sailplane Wing* [Construction\Testing], page 37

1980

Volume V, Number 4, June, 1980

- Bernard Peiwonsky, *A Letter from the Editor*, page 1
George Bennett, Einar Enevoldson, Joe Gera, and Jim Patton, *Pilot Evaluation of Sailplane Handling Qualities* [Performance], page 3
Winfried M. Feifel, *Combination of Aileron and Flap Deflection for Minimum Induced Drag* [Performance], page 15
Francisco Leme Galvão, *A Simplified Method of Airfoil Design* [Aerodynamics\Design], page 24
Frank Irving, *The Energy Loss in Pitching Maneuvers* [Aerodynamics\Performance], page 39

Volume VI, Number 1, September, 1980

- John McMasters, *A Letter from the Editor*, page 1
M. Hansen, *Design and Construction of the SB-11*, page 3
J. Gedeon, *Some Thoughts on the Feasibility of a Solar-Powered Plane*, page 11
Frank G. Sator, *Supercritical Airfoil Sections with Slotless Fowler Flaps for Gliders and*

Motogliders, page 19

Ch. Fauvel, *New Developments in Self-Launching Sailplanes Single Seater Flying Wing*

Fauvel AV-451 with Laminar Airfoil Wortmann GX-66H-159, page 27

Call for Papers, page 31

Volume VI, Number 2, December, 1980

J.H. McMasters and M.L. Henderson, *Low Speed Single Element Airfoil Synthesis*, page 1

F.X. Litt and G. Sander, *Optimal flight strategy in a given space distribution of lifts with minimum and maximal altitude constraints [Techniques\Flight]*, page 23

Justyn Sandauer, *Some problems of the dolphin mode flight technique [Techniques\Flight]*, page 29

H.C. Higgins, *The light touch*, page 35

1981

Volume VI, Number 3, March, 1981

J.H. McMasters, *Editorial*, page 1

Wieslaw Stafiej, *Loading Consequences of the Wing Upper Surface Air Brake*, page 3

R.T. Lamson, *Possible Overloading of Sailplane Wings through Spoiler Operation at High Speed*, page 9

G.P. Esson and C.A. Patching, *Fatigue Life Considerations for Gliders Operated in Australia*, page 10

L.M.M. Boermans, *Development of a Computer Program for Parametric Sailplane Performance Optimization*, page 17

W. Gorisch, *Energy Gain in Pitching Maneuvers*, page 37

Volume VI, Number 4, June, 1981

Dr. Teddy Stedtfeld and Ann Welch, *Technical Developments at the World Championships*, page 1

J.H. McMasters, R.H. Nordvic, M.L. Henderson, and J.H. Sandvic, *Two Airfoil Sections Designed for Low Reynolds Numbers*, page 2

J.L. De Jong, *Optimal Range Velocity Polar*, page 25

Volume VII, Number 1, September, 1981

K.H. Horstmann and A. Quast, *Reduction of Section Drag by Blowing Rows of Holes in Areas of Laminar Separation Bubbles*, page 1

G. Sunderland, *A Pilot Restraint System for the Moba 2C Glider*, page 6

D. Althaus, *Drag Measurements on Airfoils*, page 9

L.M.M. Boermans and H.J.W. Selen, *On the Design of some Airfoils for Sailplane Application*, page 13

Wolfram Gorisch, *Load Variation Flight Style and its Implications to the Theory of Soaring*, page 36

Frank Irving, *The Optimum Center of Gravity Position for Minimum Overall Energy Loss*, page 43

Volume VII, Number 2, December, 1981

E. Eugene Larrabee and Susan French, *Propeller Design and Analysis for Pedal Driven and other Odd Aircraft*, page 49

Frank Irving, *Shapes for the Tips of Lightly-Loaded Propeller Blades*, page 66

Biulio Romeo, *Sailplane Wing Box Design using Graphite/Aramid/Epoxy*, page 70

J.C. Riddell, *The Design and Development of the Sprite Sailplane, 1969-1980*, page 76

D. Althaus, *Influencing Transition on Airfoils*, page 82

ASW-22, *from Flight International*, page 94

1982

Volume VII, Number 3, April, 1982

- J.C. Riddell, *The Design and Development of Glider Launching Winches*, page 95
Evaluation of Sailplane Accidents [Safety], page 103
Kluas Holighaus, *Self-Sustaining Engine*, page 111
Ch. Kenschke, *Fatigue Test of a Sailplane Wing in CFRP Construction*, page 114

Volume VII, Number 4, July, 1982

- Gary Sunderland, *Progress on Home-Built Sailplanes*, page 128
Dan M. Somers, *NASA Research Related to Sailplane Airfoils*, page 136
C.A. Patching, *Two-Seater Glider Flight Test Evaluation [Aerodynamics\Flight Tests]*, page 144
Dr. Jozsef Gedeon, *Primary Two-Seater Development Problems*, page 155
-

1983

Volume VIII, Number 1, April, 1983

- D.S. Tannhauser, *Angles and Forms While Turning on Tow*, page 1
G. Stich, *Effect of the Fixed Horizontal Tail on Flight Characteristics in Circling*, page 3
Frank Irving, *How Glider Pilots Get There Faster*, page 14
R.A. Streater, *Variable Geometry Airfoils as Applied to the Beatty B-5 and B-6 Sailplanes*, page 21

Volume VIII, Number 2, September, 1983

- K.J. Herr, *Comments on Performance and Handling Qualities of Gliders with Variable Geometry (D-40 of Akaflieg Darmstadt) [Performance]*, page 33
Wojtek Mozdyniewicz, *Basic Dolphin Tactics (see comments in volume 8 number 4) [Techniques\Dolphin]*, page 37
R.S. Scorer, *Notes on Cloud Streets as Seen by Satellite [Meteorology\Clouds]*, page 45
Herbert Pirken, *A Proposal for a New Variometer System [Instruments\Variometers]*, page 53
Justyn Sandauer, *A Simple Model of Dynamic Energy Exchange Between a Sailplane and Vertical Air Currents [Performance]*, page 66
Call for Papers - 4th International Symposium on the Science and Technology of Low Speed and Motorless Flight, page 69
-

1984

Volume VIII, Number 3, February, 1984

- L.M.M. Boermans and D.C. Terleth, *Wind Tunnel Tests of Eight Sailplane Wing-Fuselage Combinations [Aerodynamics]*, page 70
L.M.M. Boermans and B. Oolbekkink, *Wind Tunnel Tests on an Outer Wing Segment of the ASW-19X Sailplane [Aerodynamics]*, page 86
J.L. De Jong, *The "Convex-Combination Approach," A Geometric Approach to the Optimization of Sailplane Trajectories*, page 98

Volume VIII, Number 4, July, 1984

- Udo Drebler, *Aerodynamic Design of Winglets for a Standard-Class Glider [Aerodynamics]*, page 118
Ilan Kroo, *Trim Drag, Tail Sizing and Soaring Performance [Aerodynamics]*, page 127
Einar K. Enevoldsen and Marta R. Bohn-Meyer, *Flight Test Measurements of the Longitudinal Stability and Performance of the Canard Sailplane Solitaire [Aerodynamics\Flight Tests]*, page 138
B. Strojko, *Computer-Aided Research of Different Ways of Leaving a Thermal [Performance]*, page 142
W. Gorisch, *Letters to the Editor - Basic Dolphin Tactics [Techniques\Dolphin]*, page 151

1985

Volume IX, Number 1, January, 1985

- Juan R. Cruz, Mark Drela, and John S. Langford, *The MIT Monarch and the Kremer World Speed Competition* [Sailplanes\MIT Monarch], page 1
J. Gedeon, *Some New Developments in Atmospheric Turbulence and Terrain Surface Description* [Meteorology], page 7
Wieslaw Stafiej, *The Wing Loading Spectrum of a Glider in Aerobatics Maneuvers Measured on a Training Two-Seater SZD-9bis "Bocian"* [Construction], page 14
Alex Strojnik, *Improving the Constant Chord Wing* [Aerodynamics], page 18
D.J. Marsden, *Sailplane Performance Flight Testing* [Aerodynamics\Flight Tests], page 23
Call for Papers, 19th OSTIV Contress 1985 in Rieti, Italy [OSTIV], page 33

Volume 9, Number 2, July, 1985

- Peter Newgard, *Total Energy Errors Due to Air-Data Sampling* [Instruments], page 34
A.M.O. Smith, *The Possibilities of Sailplanes Designed to Use Laminar Flow Control* [Sailplanes\Design], page 39

Volume 9, Number 3, September, 1985

- Paul F. MacCready, *Natural and Artificial Flying Machines*, page 58
John H. McMasters, *A Critique of Two Recent Sailplane Design Contests* [Sailplanes\Design], page 64
R. John Hansman, Jr., *Performance Degradation of Natural Laminar Flow Airfoils Due to Contamination by Rain or Insects* [Aerodynamics], page 73

Volume 9, Number 4, November, 1985

- Alex Strojnik, *Design Considerations for a Homebuilt Powered 2 Seat Sailplane*, page 78
R.E. Baier, *Prospects for Preventing Insect Adhesion to Leading Edges of Aircraft*, page 82
M. Sri-Jayantha and Robert F. Stengel, *Data acquisition System and Methodology for High Angle of Attack Parameter Estimation*, page 85

1986

Volume 10, Number 1, January, 1986

- D. Althaus, *Effects on the Polar Due to Changes or Disturbances to the Contour of the Wing Profile*
Rudolph Bruzel, *The Influence of Acceleration on the Sink Rate of a Sailplane and on the Indication of the Variometer* [Instruments\Variometers]

Volume 10, Number 2, April, 1986

- F. Irving, *Glider/Tow-Plane upsets*
S.O. Ridder and H. Unden, *Windex 1200: Design Process and Progress Report*

Volume 10, Number 3, July, 1986

- E. Hindman, *Ascending Mt. Everest Through Soaring Flight*
H.V. Senn, *Sailplane Flights through Funnel Clouds* [Meteorology\Clouds]
J. Maupin, *The Carbon Dragon Foot Launch Sailplane*

Volume 10, Number 4, October, 1986
