POSTPONEMENT OF EASTERN STATES GAS MODEL AIRPLANE MEET

The Soaring Society of America regrets very much having to announce the necessity of postponing indefinitely the Gas Model Airplane Meet which was scheduled to take place during the National Soaring Contest. Unfortunately, the June issue of SOARING was already out before this decision was reached by the Executive Committee, who later found that it would be impossible to obtain adequate facilities for the meet on the changed dates. The announcement of the moving up of the meet was due to the last minute change in dates for the National Meet over which we had no control.
