

# SOAR!

*All the Sport of FLYING*  
*is in the Yankee Doodle Two!*

Excepting a homing-pigeon flying its monotonous straight-line errand, watch any bird in flight. Watch it dip and rise, coast down an invisible runway, rise and soar again! Throughout the ages man has envied its glorious freedom. Envy it no longer—this freedom enjoyed by thousands today will be yours tomorrow in your own *Yankee Doodle Two*.

For sheer unmatched ecstasy, gliding—sailplaning—is a sport literally "out of this world!" Let the *Yankee Doodle Two* prove to you that gliding *is* the King of Sports.

Do you want relaxation? Step into your *Yankee Doodle Two* and drift with sleek silent wings on a sea of lazy clouds.

Do you want thrills? Depend on the same sturdy *Yankee Doodle Two*. If you choose, you may divide each flying hour into sixty thrill-packed minutes.

Write to Dept. S-1  
for complete details.
