

# CONTRIBUTORS TO S.S.A. TEAM

Following is a list of persons and companies from throughout the United States whose contributions helped make possible United States participation in the World Soaring Championships in Spain. A large percentage of the contributors are members of the Soaring Society of America. Regrettably, it is expected that a number of names of contributors will not appear in the list, owing to the fact that complete records have not been compiled at the time of this issue of SOARING. We would appreciate hearing from those whose names do not appear, so that they may be included in an Addendum list in the next issue. The Soaring Society of America extends a hearty "Thank you!" to all who gave.

## CONTRIBUTORS TO MADRID CONTEST
