The recently founded model Aero-club at Ecole Superieure Saint-Michel, Buckingham, Canada, under the leadership of Brother Roger and Brother Bernard. These models have all been built by the boys themselves.

Staff Photo  
Something to boast about! The beautiful new bar built by Texas Soaring Association members under the direction of Architect Jon Carsey, adorns the west wing of TSA's spacious club house.

This quarter view of Gehrlein's new winch shows its rugged construction.

Pete Bowers with the No. 3 prototype Baby Bowlus built by Harold Huber. Is this the oldest "Baby" in existence?
