

Regatta... SAILPLANE STYLE!

With the "One Design Class" SCHWEIZER 1-26 SAILPLANE

NOW you can compete in soaring on an equal basis through a "one design" class competition—with the easy-to-fly Schweizer 1-26. Here is the true test of flying that puts competition among the pilots rather than on the ship design.

The high performance 1-26 class sailplane is available to you three ways—*complete and ready-to-fly; uncovered form, ready for fairing and covering; and in several kit forms.* These kits offer economy and provide an excellent winter project. While the pilot's flying skill is of major importance in "one design" competition, workmanship in completing the 1-26 from kit and in cleanup and maintenance sharpens flight competition.

Set your sights on a "one design" regatta and band together with other 1-26 purchasers in your area.

PARTICIPATE

The First 1-26 Regatta Sailplane Competition Will Be Held September 3, 4 and 5 at
Famous Harris Hill, Elmira, New York

All 1-26 pilots are invited to compete in this regatta for the first annual Championship. All other interested persons are also invited to join in the fun and learn more about the 1-26 class competition. Reserve these dates for a wonderful Labor Day week-end on Harris Hill. More details will be forthcoming.
