

THE 100th SCHWEIZER 2-22

MORE POPULAR ALL THE TIME!

Jim Doyle, President of Northeastern Light Aircraft, Schweizer dealer for eastern Massachusetts, takes delivery of 100th 2-22 from Tony Doherty, SAC Sales Manager.

New 2-22 RECORD—176 MILES
Made by AL Parker April 24, 1961
Odessa, Texas to Albany, Texas

We are confident that Gold "C" Distance flights will be made in the 2-22 during the Best Flight Contest.

The 2-22 has been long famous for its excellent training characteristics and is becoming more popular all the time. Now many pilots are beginning to realize its soaring potential. It has sufficient performance for good cross-country flying and has the advantage of being able to be landed very easily in small areas.

It is the ideal ship for you to get started in soaring. The 2-22 is available in five forms; unit kit, dry kit, standard kit, uncovered sailplane and complete sailplane. The uncovered ship can be completed in a very short time so that you can get started soaring this season.

For more information contact our dealer in your area or write direct.

MEMO: NEW "INSTRUCTOR'S" COURSE

The Schweizer Soaring School, in line with the SSA's review of flight standards, has revised its curriculum to include a Commercial "Instructor's" Course. This prepares the pilot for the FAA Instructor's Rating.
