## ALL AIRCRAFT TO BE GROUNDED OCT. 14th

All civil aircraft in the U.S. and Canada will be grounded for a 12-hour period on Saturday, Oct. 14, 1961, so the Air Defense Command may conduct air exercises termed "Operation Sky Shield," as per a special order by FAA. The hours will be 1200-2400 EST, 1100-2300 CST, 1000-2200 MST and 0900-2100 PST.

## WALTER KLEMPERER MARRIES

The many soaring enthusiasts who know Dr. Wolfgang B. Klemperer, the world's first C pilot, will be interested to learn that his only son, Walter M. Klemperer, was married on August 22nd to Corelyn M. Warner at the Congregational Church in San Marino, Calif. The two have been students at California Polytechnic College where they are now seniors. Their address, for those caring to write, is A-10 Silver City, San Luis Obispo, Calif.

## SSA TECHNICAL SYMPOSIUM WELL ATTENDED

The 1961 SSA Technical Symposium on Soaring was held in Los Angeles, Calif., on Saturday, September 16th, and attracted over 150 interested persons. Nine papers were presented on a variety of subjects as listed in the August issue of *Soaring*. Unfortunately, Dick Schreder was unable to complete his paper on the HP-10 so it was not given. One unscheduled paper on a minimum weight glider was presented by a Prof. Peter Lissaman to fill out the program.

Most of the symposium papers will be published in *Soaring* magazine within the next year. The first half of one appears in this issue. The organizer of the symposium, Fred Matteson, will have a more complete writeup of the event in the November issue.

## MET COURSE BY HOLIDAY

Holiday Soaring School at Tehachapi, Calif., has announced that it will sponsor a meteorology course for soaring pilots on five consecutive Monday evenings beginning Nov. 6th. The instructor will be a well-known soaring meteorologist who has prepared a comprehensive curriculum to acquaint soaring pilots with the theory and forecasting knowledge they need to better utilize their element.

Classes will be held in central Los Angeles and there will be a \$10 tuition fee. Those interested in enrolling should call MU 1-2468 in Los Angeles or TA 2-3736 in Tehachapi.
