tional Soaring Championships,
Harris Hill, Elmira, N. Y.**

ABC Program Grows

The closing of the year 1962 finds the ABC Program growing at a slow but steady rate. Six new clubs applied for approval of SSA Instructors and received their kits for operating their own award programs on the local level. These groups recognize the advantage of being able to present A, B and C Badges on-the-spot immediately after the flight that completed the requirements. Their instructors appreciate the printed material supplied free to them. Students are proud of the Badges that testify to greater skill and accomplishment than did the old "easy" C Badges. Make your New Year's resolution now that your club or school won't be left out. See the December, 1962, issue of *Soaring* for details.

New approved groups through
December 31, 1962.
