SSA POLICY ON ADVERTISEMENTS FOR NEW SAILPLANES

To insure that there is no misunderstanding of the licensing status of new sailplanes advertised in *Soaring* the following will apply: If the ship does not have a U.S. ATC, but application has been made, then the ad may state "U.S. ATC applied for" or "U.S. ATC in process." These statements are considered to be equivalent, and prospective buyers are cautioned that they carry no assurance as to whether or not a U.S. ATC will in fact be granted, or when such action might take place. A sailplane which does not have a U.S. ATC must be licensed in the experimental category.
