

# THE 1965 AVAILABLE

## PROVEN ABILITY

The Dart is a fully proved aircraft which has reached its present state only after 3 years of continuous development and improvement culminating in the award of the O.S.T.I.V. design prize.

VISIBILITY. The Dart has excellent visibility through our optically perfect canopy moulded by special process. Forward vision is not obscured by extreme angles.

VARIANTS A Dart variant is available to suit the need of every soaring pilot.

**A 15 Metre** fixed wheel version for the standard class enthusiast. This aircraft has the same wing spar as the 17M aircraft and can be operated with a 340lb. payload or flown at a higher 'red line' speed.

**A 15 Metre** retractable undercarriage aircraft. Ballast this one up and watch it go in those strong conditions.

**A 17 Metre** fixed wheel version. The aircraft for the best in all round performance no matter what the conditions.

**A 17 Metre** retractable undercarriage version. For the man who wants the best, this aircraft will supply it and give just that extra that makes the difference.

COLOUR Complete customer option on colour schemes

COCKPIT The Dart can accommodate all sizes of pilot up to 6' 5"
