

PERFORMANCE PLUS

For Advanced Soaring: *Schweizer 2-32*

Spacious Cockpit for Comfort — Ample Room for Extra Equipment. 475# Useful Load in High Performance or 575# in Utility Category.

Three-Place Seating with Astrodome Canopy. Two medium sized passengers can be carried in rear seat. Exceptional visibility.

Flying Stabilized Tail permits wide GG variations. Aircraft Type Trim. Sailplane meets exacting FAA Stability Requirements.

Limiting-speed Dive Brakes hold terminal velocity below maximum placard speed of 158 mph. These, combined with hydraulic wheel brake, insure safe short-field landings.

A New Concept in Soaring

This high performance 2-32 sailplane opens new vistas to soaring pilots; maximum glide ratio well into the 30s; cruising speed 95 mph with glide ratio over 22; yet suitable for light thermal conditions.

At last a really comfortable and convenient cockpit with luxurious interior and furnishings. Lifetime Schweizer all-metal construction proven by nearly thirty years' experience.

Here is the ideal multi-place sailplane for top soaring, competition flying, record flights, advanced training, special research projects — and for introducing your family and friends to soaring at its best.
