

WORLD-WIDE *winners*

High-performance sailplanes from Poland

FOKA SZD-24

"Most radical sailplane at Elmira," said Air Progress. This standard-class glider won four firsts and a second in the World Championships at Cologne. The Foka has been called the world's most beautiful sailplane.

Max. L/D—34

Min. Sink 2.2 ft./sec.

Wing Span 49.2 ft.

ZEFIR 2 SZD-19-2

Five first places in the World Championships at Cologne establish the capabilities of the Zefir beyond question. A single-seater competition glider with outstanding aerodynamic features and modern design.

Max. L/D—35 Min. Sink 2.8 ft./sec.

Wing Span 55.8 ft.

BOCIAN ID SZD-9bis

A high performance two-seater with many records to its credit. The seats are in tandem, with dual controls, and a spacious luggage compartment behind the rear seat. Fitted oxygen apparatus optional.

Max. L/D—26 Min. Sink 2.6 ft./sec.

Wing Span 59 ft.

These sailplanes may be licensed in the U.S. in the experimental category under C.A.R. Part 1.73 for racing and exhibition flights.
