SOARING AIDS

713 Waggoner, Arlington, Texas

Bibliography on Soaring

Recent articles or items on soaring which have appeared in non-soaring publications.

Air Progress, April 1966, p. 38 et. seq. "America's Largest Soaring Championships" by Richard Miller. Coverage of the 32nd National Soaring Championships with photos by the author.

Men of Action, Spring, 1966, pp. 8-11, "That's Soaring" by John Bretzmann. Many photos, including a half dozen in color, tell of the 1965 National Championships and the role played in them by the International Scout.

INTERNATIONAL F.A.I. BADGES FOR SOARING

Earned in the United States
Approvals for Applications Received
During the Month of March, 1966

DIAMOND BADGES

48. Robert H. Fisher
International Numbers Assigned:
449. George B. Moffat, Jr.; (U. S. 44)
450. William B. Cleary; (U. S. 45)
451. Ernst A. Steinhoff; (U. S. 46)

GOLD BADGES

266. Richard G. Mayer
267. Bernard M. Mohr

SILVER BADGES

1061. A. Jeffrey Yund
1062. Richard N. Miller
1063. Henry L. Varner

ALTITUDE DIAMONDS

- (All at Colorado Springs, Colorado unless otherwise stated)
George Blunden; 2-32; (Certified to Canada)
Robert E. Campbell; K-8B
Jerry M. Davis; 1-26
Robert H. Fisher; 2-32; Fremont, California
James E. Hard; 1-23H
Richard G. Mayer; 1-26
Bernard M. Mohr; K-6
Peter E. Riedel; 2-32
A. R. (Don) Fisher; Vasama; Minden, Nevada

GOLD ALTITUDE LEGS

- (All at Colorado Springs, Colorado unless otherwise stated)
Larry Cannon; 2-22E; Odessa, Texas
Francis Chromczak; 1-26

NEW from MENTOR SOLID STATE VHF TRANSCEIVERS

The new TR-10X is especially designed for sailplane operation . . . it's fully transistorized for maximum reliability and extended battery life . . . powered by economical dry batteries or rechargeable power pack . . . excellent long-range sensitivity and more than 5 watts speaker output.

TR-10X

High performance of the Mentor TR-10 Receiver is combined with a 5-channel transmitter to provide a compact 2-way system. Receiver covers the aviation band from 108 to 127 mc . . . transmitter channels are 122.5, 122.7, 122.8, 123.0 and 123.3 mc. with substitutions available at slight extra cost.

Model TR-10X Transceiver \$395.00

For installations where nav/com is desired, the Mentor TR-10XV provides for coupling to a VOR/LOC converter indicator. This model uses transmitter channel 122.1 in place of 123.3 mc.

Model TR-10XV

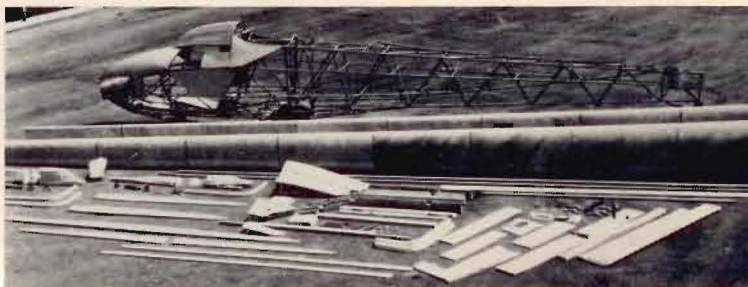

Transceiver \$445.00
