

FOR NEW SOARING HORIZONS

THE SCHWEIZER 2-32

1. For The Particular Pilot —

The 2-32 offers a new concept in soaring. Designed and produced to combine the ultimate in comfort, safety, visibility and payload with top performance, in a multi-seat sailplane. Owner reports from every section of the country give top rating to the versatility of the 2-32 for all phases of soaring — thermal, wave, contest, record or research.

2. Multi-Place Capability —

The spacious accommodations of the 2-32 — pilot plus one or two passengers — allows you to share the best of high performance soaring with your family and friends.

The 2-32 is ideal for introducing new pilots to the finest form of fun flying. Even skeptical power

pilots will feel at home in the completely furnished, comfortable cockpit which is very similar to those found only in modern powered aircraft.

3. Versatility — Utility —

Many clubs and commercial schools have discovered the 2-32 to be the ideal sailplane for advanced soaring and cross country instruction as well as for introductory flights. The 2-32's ability to carry more than one passenger promotes greater activity and revenue.

4. You Can Own a 2-32 —

Individuals, groups; as well as clubs have ordered 2-32's. Two partners can own a 2-32 with less investment and upkeep than each owning a single place with equal or less performance. Contact your Schweizer Dealer for details.

Plan Now For A 2-32!

The 2-32 is produced on a regular schedule. Our modern production tooling enables us to quote relatively short delivery times.
